Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Continuation of Disposition of Claims: Claims subject to restriction and/or election requirement are 1,3,5-8,10,11,14,15,17-19,21-24,27-30 and 33-100.

DETAILED ACTION

Claims 1, 3, 5-8, 10, 11, 14, 15, 17-19, 21-24, 27-30 and 33-100 are pending.

Election/Restrictions

Applicant's election with traverse of Group I (claims 1-3, 5-8, 10, 11, 14, 15, 17, 18 and 40) in the reply filed on 10/17/2008 is acknowledged.

Applicant also added new claims (claims 42-100).

After further consideration of the claims, further election of species is required in the current application.

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

A. Type of additional component: blood coagulation factor, thrombin-stabilizing agent, anti-fibrinolytic agent, collagen, chitin, chitosan, alginate, cellulose, oxidized cellulose, oxidized regenerated cellulose, carboxymethylcellulose (CMC), hydroxyethylcellulose (HEC), polyglycolic acid, polyacetic acid, buffering agent, antimicrobial agent, anti-infectives, surfactants, antiseptics, pain relieving agents, chemotherapeutics, anaesthetics, healing-promoting agents, vitamins, minerals, amino acids, proteins, growth factors, cells, enzymes, contrast agents, preservatives, emulsifiers, cross-linking

agents to promote healing, chemotherapeutic agents.

Applicant is required, in reply to this action, to elect a single species from the group A above to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: Pursuant to PCT Rule 13.2 and PCT Administrative Instructions, Annex B, Part 1(f)(I)(B)(2), the species are not art-recognized equivalents.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does

not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
